

2011 South Eastern Australia Farm Forestry and Firewood Machinery EXPO

hosted by Northern United Forestry Group
Friday 8 April 2011
455 Millwood Rd, Huntly, Victoria

Call for Exhibitors

Expo objectives

- To demonstrate to farm forestry industry stakeholders a range of farm forestry and firewood machinery available for use on farms
- To raise awareness of the contribution 'farm forestry' and 'firewood from private plantations' can make to energy and a sustainable future
- To demonstrate the public value of firewood in efficient and sustainable home heating.

Target audience

Over 1000 participants expected, including farmers who own land with or without plantations, farm managers, business owners, scientists, students, government and non-government professionals, planners and policy makers, forestry and farm advisory services, timber processors, timber users, firewood merchants, firewood collectors and consumers.

Hosted by

Northern United Forestry Group

Sponsored by

Victorian Department of Primary Industries (DPI)
City of Greater Bendigo
Australian Forest Growers
AgFutures
North Central Catchment Management Authority
Trees Victoria

PRINCIPAL EXPO PARTNERS

Talk Space program

A series of expert speakers will talk on farm forestry (establishing, managing and marketing your trees), firewood (types, heating efficiency) and the role of trees in the design of sustainable landscapes.

Workshop Space program

AgFutures Forum – In depth discussion on biofuels and bioenergy with **Liz Hamilton**, DPI (Gottstein trust fellow who during a 2009 study tour looked at the developments in the use of woody biomass for bioenergy in Canada and western USA); **Andrew Lang**, convenor the wood energy Group and World Bioenergy Association board member; along with representatives from a local biodiesel consortium.

Equipment to be demonstrated will include

- 'Tajfun' remote control logging winch and firewood processing machine (from SA)
- Excavator-mounted hydraulically controlled cutting head for plantation thinning
- Lucas portable sawmill
- Small-scale gassifier

Exhibitor sites \$100 each (plus GST)

A limited number of powered sites are available.

Visitor entry just \$5 per car
